tetraethyl silicate • Hazard statements Void • 2.3 Other hazards • Results of PBT and vPvB as • PBT: Not applicable. • vPvB: Not applicable.	ssessment	
SECTION 3: Compositi	on/information on ingredients	
• <b>3.2 Mixtures</b> • <b>Description:</b> Mixture of subst	tances listed below with nonhazardous additions.	
· Dangerous components:		
EINECS: 201-083-8 Index number: 014-005-00-0	tetraethyl silicate Flam. Liq. 3, H226;  Acute Tox. 4, H332; Eye Irrit. 2, H319; STOT SE 3, H335 ATE: LC50/4 h inhalative: 10 mg/l	25-35%
	butyltris[(2-ethyl-1-oxohexyl)oxy]stannane       Skin Irrit. 2, H315; Aquatic Chronic 4, H413	15-21%

· Additional information: For the wording of the listed hazard phrases refer to section 16.

## **SECTION 4: First aid measures**

- · 4.1 Description of first aid measures
- · General information: No special measures required.
- · IF INHALATED: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact:
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing:
- Rinse out mouth and then drink plenty of water.

If ingested do not induce vomiting, seek medical assistance showing the safety data sheet or the hazard label

- **4.2** Most important symptoms and effects, both acute and delayed Skin: irritation
- Eyes: irritation
- **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

(Contd. on page 3)

## Safety data sheet according to 1907/2006/EC, Article 31

(Contd. of page 2)

## SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents:

Use fire extinguishing methods suitable to surrounding conditions.

- CO2, powder or water spray. Fight larger fires with water spray.
- For safety reasons unsuitable extinguishing agents: Water with full jet
- $\cdot$  5.2 Special hazards arising from the substance or mixture
- No further relevant information available.
- 5.3 Advice for firefighters
- · Protective equipment:

As in any fire, wear self-contained breathing apparatus and appropriate protective clothing including gloves and eye / face protection.

See Section 8 for information on personal protection equipment.

## SECTION 6: Accidental release measures

 6.1 Personal precautions, protective equipment and emergency procedures Wear protective clothing. See Section 8 for information on personal protection equipment.

Wear protective equipment. Keep unprotected persons away.

- · 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- · 6.3 Methods and material for containment and cleaning up:

Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.

• **6.4 Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

## **SECTION 7: Handling and storage**

• **7.1 Precautions for safe handling** You should follow the usual precautions for handling chemical products Avoid contact with eyes and skin.

- Information about fire and explosion protection: Emergency cooling must be available in case of nearby fire.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep container tightly sealed.
- 7.3 Specific end use(s) No further data; see section 1.2.

## SECTION 8: Exposure controls/personal protection

· 8.1 Control parameters

· Ingredients with limit values that require monitoring at the workplace:

CAS: 78-10-4 tetraethyl silicate (25-40%)

OEL Long-term value: 44 mg/m<sup>3</sup>, 5 ppm IOELV

· Regulatory information OEL: 2021 CoP for the Safety, Health and Welfare at Work

according to 1907/2006/EC, Article 31

Printing date 04.04.2024

Version number 4 (replaces version 3)

Revision: 04.04.2024

(Contd. of page 5)

#### Trade name: ACTIVATOR PASTE

- · Corrosive to metals
- · Desensitised explosives

Void Void

## SECTION 10: Stability and reactivity

- · 10.1 Reactivity No hazardous reactions when stored and handled according to instructions
- · 10.2 Chemical stability The product is stable under normal conditions of use and storage
- · Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

- · 10.3 Possibility of hazardous reactions No dangerous reactions known.
- · 10.4 Conditions to avoid Excessive variations in temperature, below 0 ° C and above 40 ° C
- · 10.5 Incompatible materials: Avoid contact with acids and oxidants.

· 10.6 Hazardous decomposition products: No dangerous decomposition products known.

## **SECTION 11: Toxicological information**

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values relevant for classification:

CAS: 78-10-4 tetraethyl silicate				
Oral	LD50	6,270 mg/kg (rat)		
Dermal	LD50	6,270 mg/kg (rat) 5,878 mg/kg (rabbit) 10 mg/l (rat) (OECD TG4		
Inhalative	LC50/4 h	10 mg/l (rat) (OECD TG4		

Innalative | LC50/4 h | 10 mg/l (rat) (OECD TG403)
 Skin corrosion/irritation Causes skin irritation.

• Serious eye damage/irritation Causes serious eye irritation.

• Respiratory or skin sensitisation Based on available data, the classification criteria are not met.

- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- · Reproductive toxicity Based on available data, the classification criteria are not met.
- · STOT-single exposure May cause respiratory irritation.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- · Aspiration hazard Based on available data, the classification criteria are not met.
- · 11.2 Information on other hazards
- · Endocrine disrupting properties

None of the ingredients is listed.

## **SECTION 12: Ecological information**

#### · 12.1 Toxicity

· Aquatic toxicity:		
CAS: 7	78-10-4 tetraethyl silicate	
CL50	>245 mg/l (fish) (OECD TG 203 esposzione 96 h)	
EC50	100 mg/l (algae) (OECD TG 201 Esposizione 72h)	
	>75 mg/l (daphnia) (OECD TG 202 esposizione 48 h)	
NOEC	>245 mg/l (fish) (OECD TG 203)	
· 12.3 Bi · 12.4 M · 12.5 Ri	ersistence and degradability No further relevant information available. ioaccumulative potential Non significant accumulation in organisms obility in soil No further relevant information available. esults of PBT and vPvB assessment lot applicable.	

· vPvB: Not applicable.

## 12.6 Endocrine disrupting properties

The product does not contain substances with endocrine disrupting properties.

- · 12.7 Other adverse effects
- · Additional ecological information:
- · General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

## **SECTION 13: Disposal considerations**

#### · 13.1 Waste treatment methods

#### · Recommendation

Do not discard the product or its packaging. Do not empty into drains. Recycle the product. When recycling is not possible, dispose through an authorized company in compliance with the local or national regulations. The assignment of the waste code is the user's responsibility, after determining the properties of the waste and the process generating it and after discussing it with the authorities responsible for disposal.

#### · Uncleaned packaging:

#### · Recommendation:

Empty the containers before disposal. Do not reuse the emptied containers. Send the empty containers to recycling or to an authorized company in compliance with local and national regulations.

SECTION 14: Transport informa	tion
• 14.1 UN number or ID number • ADR, IMDG, IATA	Void
· 14.2 UN proper shipping name · ADR, IMDG, IATA	Void
· 14.3 Transport hazard class(es)	
· ADR, ADN, IMDG, IATA · Class	Void
· 14.4 Packing group · ADR, IMDG, IATA	Void
· 14.5 Environmental hazards: · Marine pollutant:	No
· 14.6 Special precautions for user	Not applicable.
<ul> <li>14.7 Maritime transport in bulk accordi IMO instruments</li> </ul>	ing to Not applicable.
· Transport/Additional information:	Not dangerous according to the above specifications.
· UN "Model Regulation":	Void

## **SECTION 15: Regulatory information**

 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safety data sheet prepared in accordance with Regulation 1907/2006/EC Article 31, Regulation (EU) No 878/2020 as subsequent amendments.

(Contd. on page 8)

IE

<sup>(</sup>Contd. of page 6)

according to 1907/2006/EC, Article 31

Printing date 04.04.2024

Version number 4 (replaces version 3)

Revision: 04.04.2024

(Contd. of page 7)

#### Trade name: ACTIVATOR PASTE

- · Directive 2012/18/EU
- · Named dangerous substances ANNEX I None of the ingredients is listed.
- DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment Annex II
- None of the ingredients is listed.

· REGULATION (EU) 2019/1148

 Annex I - RESTRICTED EXPLOSIVES PRECURSORS (Upper limit value for the purpose of licensing under Article 5(3))

None of the ingredients is listed.

#### · Annex II - REPORTABLE EXPLOSIVES PRECURSORS

None of the ingredients is listed.

· 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

### **SECTION 16: Other information**

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
